The President's Message

WEAT Southeast Section,

As we begin another WEAT year, it's a perfect opportunity to reflect on our purpose. As you probably know, we are a not for profit technical and educational organization. If you have ideas on how we can better serve you and your colleagues, please don't hesitate to contact me or any of our leadership team.

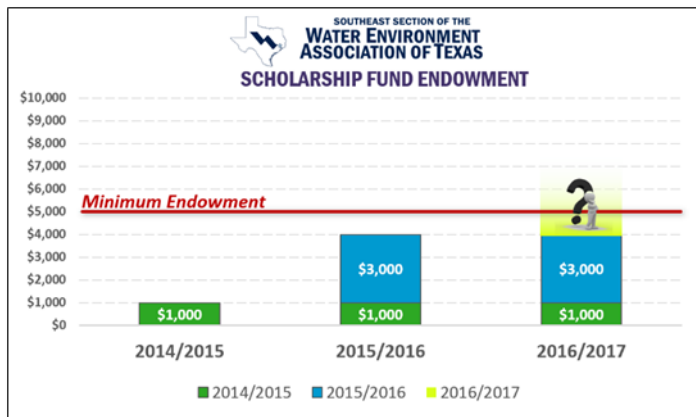

THIS YEAR'S GOAL

Our lunch events, facility tours, and seminars are designed to be interesting and educational for you, but there is another educational driver that the leadership team and I would like to share with you.

For those who are unaware, the Water Environment Association of Texas maintains a Scholarship Fund. A few years ago, *our Southeast Section established an endowment* within the WEAT Scholarship Fund. Per the bylaws, the principal within our endowment fund must reach \$5,000 before we can award funds to deserving students.

Kendall Ryan
Southeast Section President

In the past two years, THANKS TO YOUR SUPPORT, we've been able to contribute \$4,000 to our Southeast Section Endowment. Once we exceed the \$5,000 mark, **we can begin awarding scholarship money to students.** I'm hopeful that we can reach this goal this year. *It's very straightforward* - each time you sponsor or participate in a WEAT lunch, clay shoot, facility tour, or seminar, you're helping to fund education.

LEADERSHIP TEAM

As our section grows, we continue to add positions and responsibilities to our leadership team. I want to thank all of our officers and committee chairs who continue to work beyond their 8 – 5 to the betterment of our section, our members, and our industry.

Thank you for participating in your WEAT Southeast Texas Section,

Kendall J. Ryan

About WEAT

The **Water Environment Association of Texas** (WEAT) is made up of about 1,600 Texas professionals including scientists, engineers, utility managers, operators and regulators who have dedicated their careers to protecting and enhancing our state's water resources.

AUGUST EIC SCADA PANEL

On August 2nd, the EIC committee held a SCADA Panel Presentation to discuss upcoming trends in SCADA, changes in cyber security and the effect on SCADA systems, the future of SCADA systems, and SCADA system integration. The panel was comprised of Bob Lee from BL Technology, Carlton McDevitt from ST Environmental Services, Kyle Jones with CDM Smith, and Jon-Paul Dixon with Shrader Engineering. The panel was moderated by Sean McMillan of Jones and Carter.

MAY ETHICS SEMINAR

On May 19th, Rick Valdes, with the Compliance & Enforcement Department of the Texas Board of Professional Engineers, gave a presentation on ethics and his experience as a compliance officer.

YP BOWLING EVENT

Young professionals got together for some healthy competition and networking at this summer's YP bowling event.
